PROTECTION

THE PIONEER

For more than 20 years we have been collaborating with the leading brands of the motorcycle industry – undoubtedly the most extreme application when it comes to impact protection. We are and will always remain dedicated to developing protectors that offer the best impact protection and comfort!

AWARD WINNER

No other brand has won more comparative tests than we did. For years, our products have been the benchmark for safety in the motorcycle, winter-sports, equestrian and bike industry. Not only have our protectors been honored with multiple awards year over year – we are proud to have already won the **Spoga Horse Innovation Award three times.**

INNOVATION & FLEXIBILITY

We are the only brand to develop and manufacture not only the garment but the protector itself. This unique know-how allows us to develop the protector and garment as one cohesive unit. This makes our protectors much better to wear without sacrificing their protective properties.

KOMPERDELL – 3 TYPES OF PROTECTORS FOR MAXIMUM SAFETY IN EQUESTRIAN SPORT

1 SAFETY VEST FRONTZIP EN 13158:2018 – LEVEL 3

The Komperdell Safety Vest was developed for the military and cross rider.

With integrated width adjustment and improved ergonomic body shape design the vest offers increased wearability and comfort. Additional ventilation zones guarantee maximum breathability.

2 BALLISTIC FLEX FIT EN 1621-2 – LEVEL 2

The new Ballistic Styles feature an automatic width adjustment system, which has already been used reliably in our Level 3 Safety Vests.

It is the perfect training vest for all safety oriented equestrians either at a recreational or professional level. Additional foam inserts on the sides and in the front dampen light shocks.

3 CASUAL PROTECTION EN 1621-2 – LEVEL 2

A completely new style of protective clothing! Protectors integrated in functional clothing allow decreasing the number of layers resulting in less weight, increased breathability and enhanced freedom of movement.

The collection consists of various stylish and at the same time functional products that can be used for many occasions. Of course, all models are equipped with the safest and most flexible Cross Flex back protector. A must-have for all people who regularly work and train with their horse.

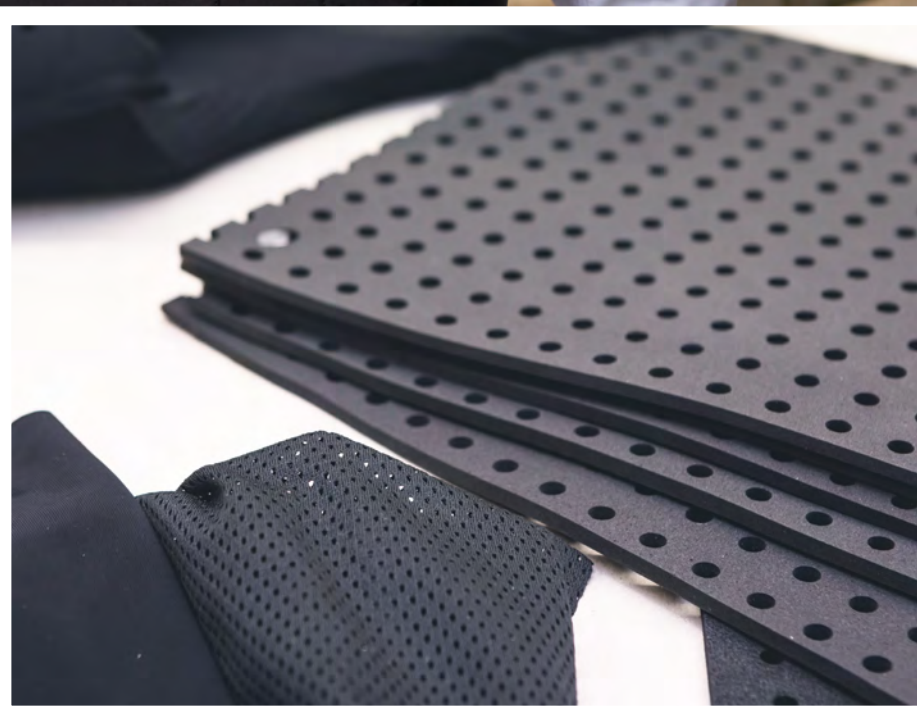

EN 13158:2018
LEVEL 3

SAFETY VEST

360° PERFECT SAFETY WITH OUR LEVEL 3 VEST

Our safety vest providing 360° protection is amazingly comfortable. Due to its special ergonomic cut it perfectly contours to your individual body shape. The multi-layer construction and the especially soft foam guarantee a perfectly ergonomic fit.

1

INTEGRATED WIDTH ADJUSTMENT

Only Komperdell offers a special layering technology and intelligent flex zones which allow an automatic width adaption. It offers maximum freedom of movement and best fit.

2

APPROVED BY EN 13158:2018 – LEVEL 3

With top results for residual forces our vest surpasses the strictest legal standards – 360° perfect safety.

3

MULTILAYER CONSTRUCTION

It guarantees an extremely flexible protector system. The dual density foam contours to the body and gets softer the longer the protector is worn. Together with the thermo fit material the vest offers an almost tailor-made fit.

SAFETY VEST LEVEL 3

extended perforation
in the front and back

SAFETY VEST REGULAR-FIT FRONTZIP

Sizes: S - XXL

Features:

- * EN approved 13158:2018 – level 3
- * 360° all around protection
- * further improved ergonomic body shape construction
- * extremely lightweight & flexible protector
- * best safety values
- * with front zipper – easier to put on and take off
- * integrated width regulation
- * easy to wash and take care of
- * design made in Austria
- * transport protection sleeve included

EN 1621-2 – LEVEL 2

BALLISTIC FLEX FIT

NO PROTECTOR IS SO LEIGHTWEIGHT & COMFORTABLE TO WEAR

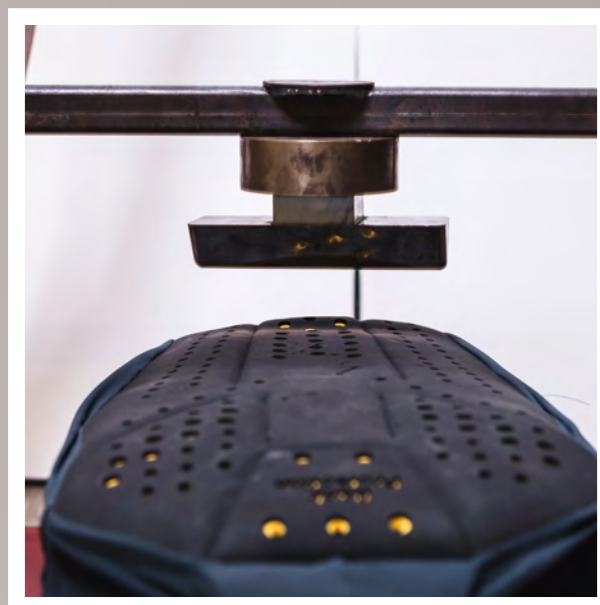

The vest offers almost complete 360° protection and it is significantly more flexible in width. The width of the vest automatically adjusts to the rider's girth when the front zipper is closed.

1

INTEGRATED WIDTH ADJUSTMENT

Only Komperdell offers a special layering technology and intelligent flex zones which allow an automatic width adaption. It offers maximum freedom of movement and best fit.

2

APPROVED BY EN 1621-2 – LEVEL 2

With our know-how from the motorcycle industry, i.e. the most extreme application area for efficient protective clothing, we develop the safest protectors for equestrian sports – maximum protection and best wearing comfort.

3

MULTIPLE AWARDED

Because the best results for our customers are not good enough for us, our team is constantly developing new innovations that have also won multiple awards.
